ABB SSAC's New Timers and Controls Catalog

ABB is pleased to announce the latest edition of the popular SSAC Timers and Controls Catalog. (SS3 Cat. # 1TRC001009C0201).

This 552 page catalog and application manual provides concise data and application tips unavailable elsewhere. A double indexing system, and comprehensive selection guides, speed the selection of: Time Delay Relays, Encapsulated Timing Modules, Universal Timers, Multifunction Timers, Alternating Relays, Voltage Monitors, Current Sensors, Phase Monitors, Liquid Level Controls, Flashers, Tower & Obstruction Lighting Controls, and accessories. This new edition includes the complete ABB

brand of DIN3 mount timers, monitoring relays, and solid state relays.

Each data sheet includes complete specifications, illustrations, photos and operational information needed to select one of the over 225 product series. The SS3 is easy-to-use and can be understood by designers, technicians, service contractors and non-technical users.

The SS3 also contains informative application notes along with a colorful plant tour, and information about custom product design programs.

This catalog is a must for all Engineering and Purchasing Departments who require reliable ISO9000 quality products with UL, CSA and CE approvals. Quality designs and rugged encapsulated construction allow the SSAC brand products to be backed by an exclusive 10 Year Product Warranty. The SS3 is available in print and on CD-ROM.

ABB has authorized distributors throughout the US and Canada.

ABB (www.abb.com) is a leader in power and automation technologies that enable utility and industry customers to improve performance while lowering environmental impact. The ABB Group of companies operates in around 100 countries and employs about 115,000 people. The company's U.S. operations employ about 9,000 in manufacturing and other facilities in 40 states.
