ABB Low Voltage Products and Systems Announces: New Industrial Controls Catalog – AC1000

ABB LVPS has just released a new edition of its comprehensive industrial controls catalog - AC1000 Product Selector. ABB Low Voltage Products and Systems is a US based division of ABB Inc., the international leader in power and automation technologies.

This new 1400 page industrial controls catalog and application manual provides clear, concise data, and application tips unavailable elsewhere. A revised product selection guide at the beginning of each product section speeds the selection of: Contactors, Starters, Overloads, Softstarters, Manual Motor Starters, Circuit Breakers, Disconnect Switches, Sensors, Cam Switches, Panel Switches and Pilot Lamps, Cable Routing &

Bus Wiring Systems, Limit Switches, Transformers, Arc Guard Controls, Network Quality Capacitors, Control Systems and more. ABB offers a complete line of industrial controls for OEM's, industrial, commercial, MRO customers and designers.

For the designer and specifier, this edition features comprehensive product specifications including, parametric selection tables, UL and IEC ratings, rating tables, dimensional drawings, interchangeable parts and value added accessories. For industrial and MRO users, the new edition includes a full alphanumeric index of part numbers. This index speeds data retrieval for the thousands of part numbers shown in the catalog.

ABB has sales representatives and stocking distributors at over 500 locations throughout the US and Canada. ABB LVPS is ISO 9000 registered supplier.

This reference manual is a **MUST** for all industrial control system, and process control system design engineers. It's FREE for qualified designers, specifiers, and users.

ABB (www.abb.com) is a leader in power and automation technologies that enable utility and industry customers to improve performance while lowering environmental impact. The ABB Group of companies operates in around 100 countries and employs about 133,000 people. The company's U.S. operations employ about 10,000 in manufacturing and other facilities in 40 states.
