### Metallic enclosures

Metallic Type 1, 3, 3R, 4, 4X, 12 & 13 enclosures are also available upon request. Please consult factory.

- ① Not available in metal.
- ② All pilot devices mounted in enclosures must have legend plate or spacer to correctly interface with auxiliary contacts.
- ③ Must be used with CBK-ES★ Emergency Stop operators shown on pages 8.17, 8.31 & 8.32.
- ④ Must be used to stabilize contact blocks in pushbutton stations.
